Feedback on the building options:

| |
|---|
| I prefer the cranked building by far. I think a separate hall will have a more significant impact on the green space and will be visually less appealing. |
|---|

Feedback on the locations:

| |
|--|
| Should definitely utilise the corner where the current shop is as it's redundant land behind it, and needs improving anyway. |
|--|

Feedback on the designs:

| |
|--|
| Excellent. I think linking the shop/cafe to the hall, if (needed at times I'm sure) should be essential. This will make it a much more functional building. |
|--|

How Can You Help??

| |
|---|
| Acoustic tests for musical performances! And any other help with design/layout of hall. |
| Painting, planting / landscaping. |

local fund raising offers exciting prospects in a 'wealthy' village based on previous cases. But a good deal of ingenuity & creative thinking will be needed to develop & actualise the options
